SUMMARY

Computing Science Honours student (Artificial Intelligence specialization) at the University of Alberta seeking software engineering, machine learning, or data internships. Strong in Python, machine learning, and data structures/algorithms, with a track record of shipping working software end-to-end. Based in Edmonton; open to remote.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML, CSS

Concepts: Data Structures & Algorithms, Object-Oriented Programming, Machine Learning, Artificial Intelligence (AI), Debugging

Tools & Platforms: Git, GitHub, MS Office (Excel, Word, PowerPoint), Google Workspace, SEO

Spoken Languages: English (fluent), Hindi (fluent), Punjabi (fluent), French (beginner)

EDUCATION

BSc Honours, Computing Science — Artificial Intelligence Specialization

2024 – Present

University of Alberta

Edmonton, AB

Class XII, Science Stream — Distinction

2023 – 2024

DAV Public School

Punjab, India

EXPERIENCE

Teaching Assistant — Introductory Computing Science

Jan 2025 – Present

University of Alberta

Edmonton, AB

- Support 50+ students per term in introductory Computing Science and Python, explaining technical concepts in plain language.
- Debug unfamiliar errors in real time during weekly lab sessions and guide students through code optimization and algorithm design.
- Grade assignments with detailed, constructive feedback and coordinate with instructors to align on course objectives.

Undergraduate Tutor

Jul 2025 – Present

University of Alberta Students' Union (UASU)

Edmonton, AB

- Tutor fellow undergraduate students in courses I have completed, breaking down technical concepts and guiding them through problem-solving one-on-one.

Assistant Regional Coordinator

Apr 2025 – Present

Harrington Housing

Edmonton, AB • Remote/Hybrid

- Serve as primary point of contact for residents, resolving 20+ inquiries per week, and coordinate leasing, onboarding, and unit setup while documenting interactions for accuracy and compliance.

Founder, Owner & Operator

Aug 2021 – Jul 2024

Quick-Service Restaurant

Punjab, India

- Built and ran a business for three years, managing online sales, purchase orders, and daily operations; trained staff and grew repeat-customer loyalty through consistent service quality.

PROJECTS

Bike-Demand Forecast — End-to-End ML on Real Data — *Python, pandas, scikit-learn*

- Built an ML pipeline forecasting hourly bike-share demand from 17K+ real records using a leakage-free chronological train/test split; gradient boosting cut RMSE 71% vs. baseline ($R^2=0.91$), verified by an 11-test suite.

StudyCircle — Study-Group Matcher — *JavaScript*

- Designed and deployed a live web app matching students via a weighted multi-factor scoring algorithm and greedy group-formation strategy; vanilla JS, no backend, covered by 32 automated tests.

Neural Network from Scratch — *Python, NumPy*

- Implemented a neural network (forward pass, backpropagation, SGD with momentum) from scratch with NumPy; verified correctness via numerical gradient checking and reached 97%+ accuracy on non-linear data.

Resume ↔ Job-Description Matcher — *Python, NLP*

- Built a dependency-free NLP tool scoring resume-to-job-description fit with a from-scratch TF-IDF and cosine-similarity engine plus alias-aware skill-gap detection; backed by a 19-test suite.

LEADERSHIP & ACHIEVEMENTS

- Elected Head Boy and Deputy Head Boy (student government, 2022–2024); 2nd prize, Interschool Entrepreneurship Competition (₹11,000 award).
- Regional 1st prize and national consolation prize, CBSE Science Exhibitions; CPR / First Aid / AED certified.
