SUMMARY

Third-year BSc Honours Computing Science (Artificial Intelligence specialization) student at the University of Alberta seeking software engineering, machine learning, or data internships. Strong in Python, machine learning, and data structures and algorithms, with a record of shipping tested software end to end. Four consecutive terms as a Computing Science Teaching Assistant (CMPUT 174 and 175) supporting 50+ students per term, alongside several concurrent campus and work roles. Based in Edmonton; open to remote.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML, CSS

Concepts: Data Structures & Algorithms, Object-Oriented Programming, Machine Learning, AI, Neural Networks, NLP, Statistics, Debugging, Testing

Tools & Platforms: Git, GitHub, pandas, NumPy, scikit-learn, MS Office (Excel, Word, PowerPoint), Google Workspace, SEO

Spoken Languages: English (fluent), Hindi (fluent), Punjabi (fluent), French (beginner)

EDUCATION

BSc Honours, Computing Science — Artificial Intelligence Specialization, University of Alberta 2024 – Present
Relevant coursework: MATH 125, MATH 144, MATH 146, STAT 151, STAT 252
Class XII, Science Stream (Distinction), DAV Public School, Punjab, India 2023 – 2024

EXPERIENCE

Teaching Assistant — Introductory Computing Science (CMPUT 174 & 175) | University of Alberta Jan 2025 – Present

- Four consecutive terms as a TA: CMPUT 174 (Winter 2025, Fall 2025), CMPUT 175 (Winter 2026), CMPUT 174 (Fall 2026). Support 50+ students per term in introductory Computing Science and Python.
- Debug unfamiliar errors in real time across two weekly lab sections and weekly office hours; guide students through code optimization and algorithm design; grade assignments with detailed, constructive feedback in coordination with instructors.

Undergraduate Teaching Assistant — STAT 252 | University of Alberta Sept 2026 – Present

- Grade coursework and exams, coordinating with the course instructor to apply consistent rubrics and provide constructive feedback to students.

Undergraduate Exam Proctor | Faculty of Nursing, University of Alberta Sept 2026 – Present

- Proctor in-person examinations for undergraduate Nursing students across multiple scheduled sessions per term, upholding academic integrity and smooth exam-day logistics.

Parking & Event Services Attendant | USOF CS Parking Services, University of Alberta Sept 2026 – Present

- Support parking and traffic operations for large-scale university and community events; completed workplace safety and harassment-prevention training.

Assistant Regional Coordinator | Edge Living (formerly Harrington Housing) — Remote/Hybrid Apr 2025 – Present

- Primary point of contact for residents, resolving 20+ inquiries per week; coordinate leasing, onboarding, unit setup, and move-ins/move-outs while documenting interactions for accuracy and compliance. Booked 50+ rooms in a single month.

Undergraduate Tutor | University of Alberta Students' Union (UASU) Jul 2025 – Present

- Tutor fellow undergraduate students in courses I have completed, breaking down technical concepts and guiding them through problem-solving one-on-one.

Founder, Owner & Operator | Quick-Service Restaurant, Punjab, India Aug 2021 – Jul 2024

- Built and ran a business for three years, managing online sales, purchase orders, and daily operations; trained staff and grew repeat-customer loyalty.

PROJECTS

Bike-Demand Forecast: End-to-End ML on Real Data — *Python, pandas, scikit-learn*

- Built an ML pipeline forecasting hourly bike-share demand from 17K+ real records using a leakage-free chronological train/test split; gradient boosting cut RMSE 71% vs. baseline (R-squared 0.91), verified by an 11-test suite.

StudyCircle: Study-Group Matcher — *JavaScript*

- Designed and deployed a live web app matching students via a weighted multi-factor scoring algorithm and greedy group-formation strategy; vanilla JS, no backend, covered by 32 automated tests.

Neural Network from Scratch — *Python, NumPy*

- Implemented a neural network (forward pass, backpropagation, SGD with momentum) from scratch with NumPy; verified correctness via numerical gradient checking and reached 97%+ accuracy on non-linear data.

Resume-to-Job-Description Matcher — *Python, NLP*

- Built a dependency-free NLP tool scoring resume-to-job-description fit with a from-scratch TF-IDF and cosine-similarity engine plus alias-aware skill-gap detection; backed by a 19-test suite.

LEADERSHIP & ACHIEVEMENTS

- Events Coordinator, UAlberta Bhangra Club and UAlberta Bollywood Club: plan and run large-scale student events.
- Elected Head Boy and Deputy Head Boy (student government, 2022–2024); 2nd prize, Interschool Entrepreneurship Competition (INR 11,000 award); regional 1st prize and national consolation prize, CBSE Science Exhibitions; CPR / First Aid / AED certified.
